**Professional Summary** — Highly motivated and skilled Java Developer with a strong foundation in web development and database management. Proven experience in designing, developing, and deploying scalable software solutions. Passionate about leveraging technology to solve real-world problems and continuously improving technical skills. Adept at collaborating with cross-functional teams to deliver high-quality projects on time.

## Technical Skills

### Languages

- Java
- SQL
- JavaScript
- HTML
- CSS
- Python

### Frameworks & Libraries

- Spring Boot
- Spring MVC
- Hibernate
- JSP
- Servlets
- React

### Databases

- MySQL
- Oracle DB
- PostgreSQL
- SQLite

### Tools

- Git
- Eclipse IDE
- VS Code
- Maven
- Gradle
- Docker

## Experience

### Oytie Private Limited

Jan 2024 – July 2024

Java Developer Intern

Pune, Maharashtra

- Developed web applications using Java, Spring Boot, and MySQL, ensuring robust and efficient backend functionality.
- Collaborated with front-end developers to integrate user-facing elements with server-side logic, improving overall application performance.
- Implemented RESTful APIs for seamless communication between the client-side and server-side components, enhancing the user experience.
- Provided constructive feedback to peers, fostering a collaborative and high-quality development environment.
- Utilized version control systems like Git for efficient project management and collaboration.
- Optimized database queries, reducing response times by 20%.

## Education

### ASM's IBMR College, Pune

2021 - 2023

Master of Computer Application (MCA)

GPA: 7.10/10

### Brijlal Biyani Science College, Amravati

2018 - 2021

Bachelor of Computer Application (BCA)

GPA: 7.00/10

## Certifications

- Full Stack Development in Java, Reputable Institute, 2024
- AI for Everyone: Master the Basics, September 2022

## Projects

### Mess Finder Android Application

Jan 2023

- Developed an Android application using Java, XML, SQLite, and Firebase for finding nearby mess facilities.
- Implemented user authentication, location-based search, and real-time data updates.

### College Management System Web Application

June 2022

- Designed and developed a web application using HTML, CSS, JavaScript, jQuery, Bootstrap, and MySQL for managing college administrative tasks.
- Implemented features like student and faculty management, course scheduling, and grade tracking.

### Agriculture Data Analysis Web Application

Jan 2024

- Developed a web application for analyzing agricultural data using React and Vite, providing an intuitive interface for users to visualize and interact with datasets.
- GitHub Repository: Agriculture Data Analysis

## Awards & Honors

- Best Project Award, College Management System, June 2022
- Dean's List, ASM's IBMR College, 2021 - 2023

## Professional Development

- Attended workshops on Microservices Architecture, Cloud Computing, and Agile Development.
- Participated in hackathons and coding competitions to hone problem-solving skills.
