EXPERIENCE

Junior Web Developer at Oytie Private Limited

HTML, CSS, JavaScript, Java, Spring Boot, MySQL

July 2022 - Present

- Contributed to the design, development, and deployment of scalable software solutions within cross-functional teams, ensuring alignment with project objectives and client expectations.
- Implemented robust database solutions using MySQL, facilitating efficient data management.

PROJECTS

College Management System Web Application (CIMS)

HTML, CSS, JavaScript, jQuery, Bootstrap, PHP

2022

- Developed a comprehensive web application allowing teachers to easily create and manage question papers, providing a seamless experience for educators.
- Implemented intuitive features for teachers to efficiently add, modify, and organize question papers within the system, enhancing productivity and streamlining the assessment process.

Spring Boot Student CRUD API

Java, Spring boot, Postman

2023

- Create, Read, Update, and Delete student records via RESTful API endpoints.
- Supports basic student information such as first name, last name, age, and email.
- Utilizes Spring Data JPA for database interactions.

Variable-Vortex

HTML, CSS, JavaScript

2024

- Variable-Vortex is a multiplication game of two variables designed to sharpen mental math skills.
- Players multiply two unknowns to achieve specific results, with levels of increasing difficulty.
- Challenge yourself in timed rounds or relaxed gameplay modes.
